Please Note

The various companies and organizations cited in the Deal Summaries of each issue are not included here. Instead, reference should be made to the four quarterly supplements, *The Health Care M&A Report*, which discuss individual deals in greater depth. Each quarterly report contains its own company index.

The Health Care M&A Monthly has a quarterly supplement which details all publicly announced health care services mergers and acquisitions. Because many companies do not reveal details of their acquisitions, especially price and terms, at the time of the announcement, those details, when available, and additional information about the target company and acquirer are provided in the quarterly report after researching SEC documents and other primary sources.
