January-June 2010 Index

INSIDE THE HEALTH CARE M&A MARKET

The January-June 2010 Half-Year Index

The Index to The Health Care M&A Monthly

Each company and organization discussed in *The Health Care M&A Monthly* during the first six months of 2010, running from January through June, is listed alphabetically herein. References are generally to the first occurrence of the company's or organization's name in the pertinent issue; further discussion may follow later in the text.

References are sorted by the month and page number of the issue in which the company appears, e.g., *Apr p. 9* stands for page 9 in the April 2010 issue.

Please Note

The various companies and organizations that are cited in the "Deal Summaries" of each monthly issue are not included here. Instead, reference should be made to the four quarterly supplements, *The Health Care M&A Report*, which discuss the individual deals in greater depth. Each quarterly report comes with its own company index.

The Health Care M&A Monthly has a quarterly supplement which details all publicly announced health care services mergers and acquisitions. Because many companies do not reveal details of their acquisitions, especially price and terms, at the time of the announcement, those details, when available, and additional information about the target company and acquirer are provided in the quarterly report after researching SEC documents and other primary sources.
